

STATEMENT OF PURPOSE

RS22874

This legislation sets requirements and limitations for beer tasting events on premises not licensed for the sale of beer by the individual glass or opened bottle. It provides the limitation for a sample size of beer and requires a specific area that the tasting sponsor can observe and ensure no minors or intoxicated persons are served. The legislation verifies and clarifies that beer tasting events are a very important aspect of the industry and will align beer tasting events with the current Idaho statute authorizing wine tasting events.

FISCAL NOTE

There is no impact on the General Fund.
